Globe-Wernicke
Sectional Bookcases

ONCE books either overcrowded limited shelf space or empty shelves yawned and waited for books. When one bookcase overflowed, a new one was purchased, and its gaping shelves were gradually filled. That was before the Globe-Wernicke period in bookcases. Now, books and their shelves come together. The bookcase grows space with the library. This is the modern way of building a library. This is the Globe-Wernicke idea.

Car No. 15 of the Barre & Montpelier Traction & Power Co.'s line collided with a single team from the Jones & Nye delivery stables yesterday afternoon at Depot square and the car was proceeding southward at a slow rate. The team had just pulled out of the livery yard when the two came together. One of the thills on the carriage was nearly thrown from his seat. Before either the horse or any part of the vehicle could be drawn from under the car, the motorman brought it to a stop. Beyond the broken thill, no damage was done and the car resumed its trip in a few moments.

William Siney, the member of the Boston Reds semi-professional baseball team, who was injured during their sojourn in Barre a few months ago, has fully recuperated from the effects of his injuries, and has resumed his contract with the Boston team which is now touring the state of Maine. Mr. Siney was struck by an automobile at the corner of Pearl and North Main streets. A week later he was able to return to his home at Dorchester, Mass. He has now recovered and is in as good condition as ever. The Boston Reds are touring the state of Maine, playing at the fairs. Lawton Witt, the Goddard lad, is still with the team. Witt will return to Barre next week to await the opening of the fall term at Goddard seminary.

CUTTING THINGS TO MEASURE

Some New Fall Values

This season bids fair to be one of the best Separate Skirt seasons we have seen in five years. The qualities and styles shown are the best and of the largest variety that have been displayed in a number of seasons. The length of the separate coats brings the Skirt into prominence. The variety of popular cloths gives you an assortment so you can get just what you will want to go with whatever coat you may select.

We start the line at a special all Wool Serge Skirt that is made in a good style for only \$3.98. This is a good style and an extra value.

At \$5.50 and \$5.75 we have a large variety of styles that are made up in Panamas, serges and novelty cloths. These are made in the season's best styles and are in a quality of material that we guarantee.

In the better qualities at from \$6.50 to \$12.00, we can show you some Skirt values that are sure to appeal to the trade as of a quality and style that it will be hard to duplicate.

The New Coats and Suits

We are showing a large variety of the early Coat and Suit models. These are models that are new and entirely different and will appeal to the trade as some of the best and most nobby styles they have ever seen. The Suit is different in many ways, the cloths are heavier and of a warmer nature than for many seasons. The length and lines of the Coat are entirely different, giving them a grace and style that makes them very attractive and popular.

The separate Coat is shown in the largest and most varied styles that have been shown in many seasons. The variety of popular models was never so great as are being shown this season. We can show you model after model, of neat, attractive styles, and yet each one carrying a distinctive style feature that is different. The new draped effect that is given to many of these Coat models makes them so much different than any previous season and in going through the line you will wonder how it is possible to get together so many handsome Coat models; but if you should go over such plants as the Wooltex, Blogg & Litteauer or Jacob Samuelson's, you would readily see how this would be possible. Every garment they put out is guaranteed for two seasons' wear. See the lines of Coats and Suits.

Two Toned Felts

One tone is used for the outside, the other for the inside of the hat. These tones might seem a quarrelsome combination, but with a judicious choice of trimming the two are harmonized and a hat is produced which is both chic and charming.
